Is This For You?

Want to join the class and score an A for your next math test but don't have the time to attend tuition classes?

Have your tuition to fit your schedule, not the other way around with numberskill's online courses and online classes. It's exactly the same lesson as the live classes... except you get to choose the day and time to attend the class! Best of all, you can repeat any part you need until you master the lesson.

All you have to do is to log in and attend the class any time, anywhere. You can also access the videos recorded from past lessons. You can revise any topics at any time. It is having your tuition on-demand.

Our Available Online Classes:

- ☒ 2017 JC1 H2 Math
- ☒ 2017 JC2 H2 Math
- ☒ 2017 Sec 3 A and E math
- ☒ 2017 Sec 4 A and E math

What Is Included In The Course?

Live Streaming Of Live Classes

Watch live streaming of actual class from anywhere without attending the class physically.

Soft Copy Of Important Notes

Get soft copy of important notes & worksheets just like everyone else in the live class.

Recordings Of Our Lessons

Watch videos of every class anytime you want without missing important lessons.

Exam-Styled Examples

Exam-styled **examples and questions** to help you prepare for your exams and tests

Focus on Concepts and Understanding

We don't just teach you how to solve it. We teach you the concepts so that you understand what you are doing.

One to One Consultation

Got a question?
Get one to one online consultation at reasonable fee.

Comparison

Choose yourself - what suits you the most..

	Live Classes	Online Classes	Online Courses
Schedule	Fixed	Anytime	Anytime
Recorded lessons from weekly classes	Yes	Yes	No
Notes and worksheets	Hardcopy	Softcopy	Softcopy
One to one consultation	Free	Extra fee	Extra fee
Topics covered	Whole year's content	Whole year's content	topic by topic
Fee	Monthly	Monthly	One-time fee for one year access.

With NumberSkill Online, you can..

- ✓ Attend your tuition class anytime, anywhere.
- ✓ Review lessons from the past for revision.
- ✓ Repeat any lesson until you understand.
- ✓ Receive the same coaching at the comfort of your home.
- ✓ Save time on travelling.

Students and Parents ♥ Our Tuition Classes, because..

- Beatrice Kay, NJC 2015

The way he incorporates technology with math has helped me view math in a totally different light..

Mr Ang is a very dedicated and patient teacher!! He always manages to make math seems fun and easy and more approachable. His belief and confidence in our abilities motivates us to strive for our very best for each exam/test!! Not to mention he always forks out time for us outside tuition lessons to answer our questions amidst his busy schedule. His lessons are very enjoyable. He also puts in a lot of effort to make his lessons interesting and thus every lesson is very enjoyable and always filled with joy and laughter. ☺
Mr Ang is also a very tech savvy person!! The way he incorporates technology with math has helped me view math in a totally different light. Like which math teacher would literally draw out a 3 dimensional plane, painstakingly plotting out all the points, just to aid your visual learning?!! You only get this at numberskill Math Tutoring.

Who Is The Principal Tutor Of Numberskill?

Gary Ang
Founder, Principal Tutor

Gary Ang is the founder of Number Skill Learning Centre. He has been teaching mathematics professionally since 2004. His educational background is as impressive as his renowned tuition classes. He graduated from the National University of Singapore (NUS) in 2004 with a Bachelor's degree in Social Science (2nd Upper Honours), where he double majored in Mathematics and Political Science and went on to do his Honours thesis in Political Science. He then continued to enhance his knowledge in Mathematics at the National Institute of Education (NIE), an institute of Nanyang Technological University (NTU), where he graduated with a Master of Science (Mathematics for Educators) degree.

He was a scholar at the University Scholars' Programme in NUS, a premier programme in NUS for the top 5% of student population and was also a recipient of the Dean's list. He also holds memberships at the Association of Mathematics Educators, Singapore Mathematical Society and American Mathematical Society.

His ability to help his students overcome their fear of Maths and eventually score well in Maths makes his tuition classes wildly popular. He is easily one of the most sought-after Math tutor in Singapore.

His Educational Background:

► Master of Science
(Mathematics) (NIE, NTU)

► Bachelor of Social Science
(2nd Upper Honours, Political Science and Math) (NUS)

► Scholar of University Scholars' Programme (NUS).

► Author of H2 JC math assessment book.
